OTTAWA MUST

BE RESPONSIBLE

Public opinion is crystallizing all over the country to the point that the government of Canada must be held responsible for the losses suffered by Canadian citizens in the collapse of the Home Bank.

The evidence is abundantly clear that members of the government at that time were fully aware of the condition of the bank.

Yet, knowing a collapse to be imminent, these members not only permitted operations to continue, but permitted the good name of the Dominion to continue to stand behind those operations.

The government of Canada certainly cannot be held responsible for the failure of every little penny-and financial concern in the Dominion. But it must be held responsible for allowing an institution to bring loss to individuals who recognize in the government's inspection system a government guarantee of soundness.

If the government does not realize its responsibilities to losers in the Home Bank fiasco, it will lose something that has hitherto been invaluable in Canadian business — public confidence that a government guarantee is worth something.—Vancouver Sun.

The department of extension of the University of Alberta has just published a treatise in booklet form on the history, organization and work of the League of Nations. This brochure was prepared by Professor Burt, head of the department of history, and is probably as complete and concise a statement of the origin and activities of the league as has been published up to the present. The booklet sells for 20 cents.

BRITISH FLAG TO BE

POSTED IN ALL SCHOOL ROOMS

The regular monthly meeting of the Blairmore Board of School Trustees was held at the School House on Friday night last, Chairman Hamilton and members Chappell, Dutil and Howe, and Secretary Gresham being present.

The minutes of last regular meeting and of special meeting were approved as read.

The offer of the Coleman Journal to supply the Blairmore school with monthly class report forms was given the consideration to which it was entitled.

Question of appointment of presiding examiners for the forthcoming June examinations was considered, and it was decided that the principal, Mr. Conway, preside, to be assisted by Mrs. Harper and Miss Fulton (or Miss Davis).

The date of court of revision was set for July 9th, at 10 a.m.

Outstanding accounts were ordered placed in the hands of Solicitor Ede for collection.

Moved by Mr. Chappell that same concessions be granted the Crowder and Tiberg children as has already been granted orphan children, of free text books and supplies. Carried.

On motion by Mr. Hamilton, it was decided to supply each room in the school with a British flag, size about 24 by 36.

Motion by Mr. Chappell, that school close for summer holidays on Friday, June 27th, to re-open on Monday, August 26th, was carried.

As Mrs. Christophers had been absent from several meetings through illness, the Board decided to grant her three months leave of absence from meetings in order to retain qualifications as member of the Board.

G. W. V. A.

There will be a general meeting of Blairmore Local of the G.W.V.A. in the clubroom at 2.30 p.m. on Sunday next. All ex-service men are requested to attend.

SHOWERS TENDERED

TO JUNE BRIDE

A mass meeting of members of Crowview Rebekah Lodge and their friends was held in the Oddfellows' hall on Thursday night last, when a miscellaneous shower was tendered to Miss Violet Warner, a member of the lodge and a prospective June bride.

A splendid supper was spread and after justice had been done to the many good things provided, dancing and other pastimes were indulged in.

On Tuesday evening the C. G. I. T. girls and Sunday School teachers held a miscellaneous shower in honor of Miss V. Warner. This, too, proved a most interesting and enjoyable event.

The marriage of Miss Warner to Mr. Houghton takes place the latter part of the month.

MEMORIAL SERVICE AT

3.30 P.M. SUNDAY

Coleman Oddfellows and Rebekahs will observe Memorial Day on Sunday next by holding the usual services at the gravesides of departed brethren and sisters.

Members are asked to meet at the Coleman I.O.O.F. hall, where they will line up at 3.30 to proceed to the cemetery.

Blairmore members, who desire transportation arrangements, are asked to leave their names with Mr. Montalbetti, as early as possible. It will also be necessary to assemble at the local hall not later than 2.30.

FOR SALE—Gurney Oxford Chancellor Six-hole All-steel Range, with water back. Apply to Blairmore Enterprise.

Save Your Gas

By installing a Thermostatic Automatic Carburetor-Control attachment on your Ford Car. It will enable you to make, by actual test, from 33 to 46 miles per gallon of gasoline, the only real gasoline saver on the market. The Control will soon be on the market for all makes of cars. The attachment can be seen at our shop. We have been appointed distributors for the Crow's Nest Pass district.

A Profitable Business

The business of saving your own money is an exceedingly profitable one in which to engage.

When part of your salary is deposited regularly in the Union Bank of Canada, it gives you a feeling of independence; you know your money is safe from fire and theft; and your deposit is earning interest all the time.

Perfection on Earth

He kept the ten commandments till
The day he came to die.
He walked the straight and narrow way
Till he was called on high.
He never went to theatres,
He never learned to dance,
He never once on shapely limb
Bestowed a wicked glance.
He never cursed, he never smoked,
Or kissed another's wife.
He never drank a single drop
Of liquor in his life.
He never let his temper rise
And call his neighbor fool.
He strictly kept the Sabbath and
He kept the golden rule.
Now if you doubt it, then be assured,
He really lived on earth—
But he was dead and dumb and blind
And paralyzed from birth.

TTT—BITS FROM "THE PINK 'UN"

A poster outside a cinema asked:
"Can a woman love twice?" Some
could, even in the same evening.

Mc C. H. Bailey remarks that
"years before coal is exhausted we
shall have ceased to be dependent
upon it." Sure. Down under, the
home fires are kept burning with best
Gehena Brights.

As the Home Rule for Scotland bill
has been thrown out, Scots will have
to be content to go on ruling England.

Mr. Henry Ford, we read, now
drives a railway engine. Sure, safety
first!

"Ah, my man," quoth the curate
to the fellow he had just met in the
train, "don't you wish you could have
your time over again." The fellow
had just done ten years. The curate
arrived at his destination minus a
collar and plus a black eye.

The Times Agony Column: "Ad-
vertiser, who has sculptured many
well known people, is prepared to
carve small busts of ladies on special
terms." But supposing some of the
ladies who accept this generous offer
have large busts?

Life's little tragedy: The unmar-
ried woman of 45. Life's larger
tragedy: The married man of the
same age.

Lots of ladies who find it difficult
to make up their minds have seem-
ingly little difficulty in making up
their faces.

A Belfast parson declares that
"silk stockings and short skirts please
the devil." So His Satanic Majesty is
very human after all.

MACLEOD JUBILEE

MacLeod, Alta., May 28, 1924.
Oldtimer.—It's a long hike back to
the days of '73, when you and I hit
old Fort MacLeod, in our uniforms of
Scarlet and gold, and it seemed a
kind of an impossible thing that we
should ever have the opportunity of
meeting again, on the same old camping
grounds, amidst the same dear old
friends. This has all been made pos-
sible by the MacLeod Jubilee, to be
held in MacLeod on July 1st, 2nd and
3rd of this year, which commemorates
the coming of the North West
Mounted Police to the west fifty
years ago.

Every oldtimer in the country is
going to be there, it will be the big-
gest Pageant and Stampede ever wit-
nessed in the west. You remember
the signing of the Treaty with the
Indians at Blackfoot Crossing, don't
you? Well this affair will be the
largest gathering of Indians since
that time, over three thousand Black-
feet, Bloods and Peigans are taking
part. The procession each day will
be the longest seen in the West, and
it will depict in every detail the West
from our arrival in 1874 until today—
Indians, cowboys, cowgirls, chuck-
wagons, floats, decorated autos, mil-
itary bands, oldtimers, veterans' or-
ganizations, lodges, fraternal and
otherwise, aeroplanes, and a large
force of veterans in the uniform of
the North West Mounted Police, also
their successors, the R.C.M.P. of to-
day.

There will be a big stampede each
afternoon, that will be a real oldtime
western affair, that is honest to good-
ness bucking, roping and bulldozing,
with the best men winning.

A good program of races will be
run off each afternoon, also the T.C.
M. Police will put on a cavalry gym-
kana, including the musical ride,
each day. In the evening the Town
will be yours; you can dance, sing
and have a real good time. There
will be old-fashioned dances, cowboy
dances, and if you prefer it, which I
very much doubt, why you can step
to those now-forgotten jazz dances. The
show will be opened July 1st by
Lieutenant-Governor Brett in a blaze
of glory. Oldtimers, listen, these are
some of the men you'll meet at the
MacLeod Jubilee.—Harry Steadman,
Fiddly Gallagher, Ed. Larkins, Bar-
ney Grier, Jim Stuttaford, Jim Grant,
Charlie Cross, Pat Burns, Fred Hault-
on, Charlie Wood, Jimmie Slaten,
"Reddy" Bryan, Jack Heron, Bill
Moffatt, old man Card, Harry Moun-
sell, Smokey Allan, George Lane, and
hundreds of others—they're all com-
ing, every one of a gun. You'll see
old Smokey driving that old stage
coach, old man Pickett hitting 'er up
on his old bull team, Red River carts,
nieches in their travails, dog teams,
saddle horse and dandies.
Valuable prizes are being offered

for everything, and if you still think
you can ride 'em like you used to,
why hop to it. Special arrangements
have been made for tourists at the
Police Barracks, you know what room
there is, enough for four or five hun-
dred cars, with water, light and
everything besides all the other accom-
modation.

You cannot afford, Oldtimer, to
turn down this. Perhaps it's the last
chance we'll have of meeting one an-
other again, it's the last chance the
youngtimers will have of seeing the
dear old Woolly West, as she was.

Come Old Boy to MacLeod, July 1st,
2nd and 3rd, bring your friends along,
tell them all about it, let them know
of the really wonderful time they'll
have. We've got tied old Father
Time for these days, come and enjoy
Time for three days, upset his
weather glass and shot her hawk fifty
years. Come and enjoy the old Town
as she used to be in the days of long
ago.

Don't forget, we want you to dress
in the old style if possible, put on
the stetson and silk shirt, chaps, if
you have them, also don't forget to
bring up the old songs you know—
"The Little Red Bull," and "Altenjah,
I'm a Bum," we want you to join in
the chorus.

Well, Cheerio, old buckaroo, here's
hoping to grip your old hand—in a
few weeks.

With best luck and success until
we meet at the MacLeod Jubilee on
July 1st.

Yours as always—Shorty.

tongue because father seldom gets a

Here and There

Shipments of grain from Vancouver for the 1923-24 season have now
passed the 41,000,000 bushel mark.
Officials estimate that the 50,000,
000 bushel mark set for the season
will be surpassed in the near future.

Reports from England state that
it has been universally conceded that
Canada's pavilion was in the best
condition when the King opened the
British Empire Exhibition at Wem-
bury on April 23rd. '23 was the
Canadian building," the reports said,
"quick and span and complete to
the last nail that led all others in
the race to the finish in time for
to-day's official opening."

Over 3,000 settlers left Liverpool
for Canada on April 26th. Thirteen
hundred of these sailed on the Cana-
dian Pacific liner "Montcalm," in-
cluding a party of 200 skilled work-
ers from Manchester, 30 belonging to
engineering trades, 40 to build-
ing trades and 42 farm hands.
Eighty skilled workers from Bar-
row-in-Furness were also on board.

A total of 40,000,000 salmon trout
eggs has been collected during the
last season by the Department of
Marine and Fisheries in Lake
Huron, Georgian Bay and Lake
Superior. The total number ob-
tained compares favorably with the
average collections of recent years
and is sufficient to fill all the
hatcheries on the Great Lakes en-
gaged in the propagation of salmon
trout.

Graphic and interesting educa-
tional motion pictures will bring
Alberta's various resources to the
eyes of those who attend the British
Empire Exhibition this year. In
addition to pictures illustrating the
life of Alberta's citizens on the
farms, on the ranches and in the
mining districts, charts will be used
to bring out interesting compilations
of statistics illustrative of the pro-
vince's agricultural and industrial
output.

Carrying an invitation to the
President of the United States to
attend the celebrations of the 100th
anniversary of the settlement of
Upper Canada by the United Em-
pire Loyalists, which will be held
in June, Miss G. Laxier, herself a
descendant of the Loyalists, left
Belleville recently on horseback to
ride to Washington alone, a dis-
tance of 600 miles. Elaborate ar-
rangements for the celebrations are
being made and it is expected that
thousands of visitors will attend.

Lewis Power, a lad of 18, appeared
before Magistrate Gresham at Clares-
holm, charged with house-breaking.
He pleaded guilty to four charges
and was sentenced to two months im-
prisonment, on each charge, being let
off lightly on account of his age.

The annual competition for the Green Cup, handicap, will be played on the 7th inst. Players may choose their own partners at any time during the day. The competition will be by strokes 18 holes handicap. The following handicaps have been revised: M. G. Rhynas -14, C. Emmerson -25, V. J. Hilling -28, G. Stevens -25, L. H. Putnam -32.

Word has just been received from Fernie that the members of the Fernie Club are looking forward to the match with Blairmore with great interest, in fact this is the main topic of conversation with golfers in Fernie and there is no doubt that Fernie will this year make a great effort to win both games. The 14th inst is suggested for the first game and this probably at Blairmore. Blairmore has always been handicapped in the past by the fact that it has never from one reason or another been able to get out a full team for this match, but if this difficulty can be overcome this year and all of those chosen are able to play, Blairmore should give a good account of itself.

THE JOB OF A MAN

"It isn't the work we intend to do,
Nor the work we've just begun
That puts us right on the ledger
sheet:

It's the work we're really doing.

"Our credit is built on the things we do,
Our debt on things we shrink;
The man who totals the biggest plus
Is the one who completes his work.

"Good intentions do not pay bills,
It's easy enough to plan;
To wish is the play of an office boy,
To do is the job of a man."

HILLCREST HAPPENINGS

The dance held in the Union Hall on Monday night was well attended and everyone present reported a good time.

Rev. C. H. Pinder, who had been attending the Methodist Conference at Calgary, returned home on Tuesday morning.

Mrs. C. Lowton, who met with an accident while crossing the foot bridge to Passburg, through which she was immersed in the river water, is recovering as well as can be expected.

The regular convention of Turtle Mountain Lodge No. 15, Knights of Pythias, was held in the Castle Hall on Tuesday night, visiting brothers from Coleman and Blairmore attending in full force to exchange fraternal greetings.

Owing to Rev. Pipder being away at Conference in Calgary, a musical service was held in the church on Sunday evening. Several members of the Hillcrest Orchestra Society assisted the service, which was conducted by Mr. Tonks. Mrs. Tonks presided at the organ. The soloists were Mrs. Pinder, Miss Harrison and Mr. and Mrs. R. Richards, Violon accompanist, Mr. J. F. Royle.

Victoria Street is being scarified and graded.

Dr. Hynes left last night on a two-weeks' visit to the coast.

D. A. Howe has been appointed steward at the G.W.V.A. club.

Lethbridge has decided on a tax rate for 1924 of 44.61 mills.

Charlie Howe was a business visitor to Kimberley, B.C., the early part of the week.

It is expected that a second dividend of about ten per cent. will be paid to Home Bank depositors shortly.

The rock work for the new road over the Frank Slide has been completed and the rock crusher is now at work on surface material.

Mrs. J. W. Howe returned on Wednesday from Pincher Creek, where she had been spending a few weeks with her mother, Mrs. H. Pelletier.

G. H. Snood, manager of the Coleman Hardware, left last week end for a trip to England. While in the Old Country Mr. Snood will take in the Wembley Exhibition.

We have told a good many fish stories ourselves, but cannot beat the Lethbridge guy who extracted a fourteen-foot salmon from Waterton Lakes with a billiard cue and a 250-foot fishing line.

Tuesday's elections in Newfoundland resulted in a decisive victory for the Opposition party, of which W. S. Munroe is head. Munroe will be called upon to form the new government.

Indian Treasure Hidden at Bon Echo

Above, left—The Big Rock in which the Silver Hoard is said to be hidden. Right—The Rock viewed from Bon Echo Inn.

Long before Jacques Cartier sailed up the St. Lawrence to discover Hochelaga, a now-forgotten race of people were making pilgrimages to the Big Rock towering above the waters of Lake Massawakee in Eastern Ontario to observe religious ceremonies, to worship before this great natural altar and to propitiate the gods who dwelt within its granite mass. In the backwoods now, five hundred years ago the Big Rock of Bon Echo was in the center of the greatest white pine forest the world has ever known and on a main highway between the north and Lake Ontario. There were no backwoods in those days, and the streams were the travel routes for the pagan people who followed the seasonal migrations of the animals with which the forests teemed.

To them the Big Rock at Bon Echo must have been a thing of mystery, as it remains today both to archaeologists and geologists. None can reconcile the sheer unadorned face with the glacial markings along its top, and in the same way the paintings along the face are an unsolved riddle. "Who put them there?" and "what do they mean?" are unanswered questions. Along the face of the Big Rock a few feet above the waterline are the hieroglyphic records of an unknown people. Painted in a virtually imperishable paint, whose composition is unknown, and which has defied the weathering effect of wind and water, these records baffle the archaeologists of the continent.

Whether they have a warlike or religious significance is not known, although some people hold that they record a great victory of the Iroquois over the Hurons and Algonquins and have been written in some involved and mystic code.

More conservative interpretation claims that the paintings of the Big Rock are trail marks, records of the hunt, signposts for other travelers. The natives of the backcountry claim that they hold the secret to the treasure cave located in the Rock, and that the solution of their riddle would open the entranceway to the long lost silver of the Indians.

From Brockville to Trenton, on the shores of Lake Ontario, the legend of the Silver's Cave has long persisted. The hint of such a cave first came when the Indians from the country to the north brought in bars of native silver to exchange for guns. For years they refused to discuss the source of their wealth with anyone, but in time, a trader by the name of John Meyers, who had been brought up in the country, was able to ingratiate himself into the confidence of two members of the tribe and in exchange for liberal quantities of fire-water, they agreed to let him know.

Late in the fall they set out, made their way up the Moira and Skootamatis Rivers, portaged from Bonmouth to the Lake into Lake Massawakee and came to the Big Rock. Conflicting stories tell of Meyers' actual trip.

M. T. Davis,

One tells of a fissure between two huge masses of rock, a long entranceway through which the trader crawled, and of a cavern at its end. When the fat pine torches carried by his drunken guides illumined the interior Meyers found himself inside an irregular cube fifty feet in size and along whose sides were piled rough cast bars of native silver, as one piled cordwood.

The trader took what quantities of the metal he could place in his knapsack and in his pockets, and departed, making as accurate a mental record of the location of the entranceway as he could. His companions would not allow him to blaze a trail, or to place a cairn, for by this time they were becoming frightened over their betrayal of the secret. The small party set out for home but crossing the lake at the headwaters of the Skoot River, the Indians abandoned Meyers who had made his way to shore with difficulty. In order to save himself from drowning he was forced to throw away all but a small quantity of silver carried in the pockets of his coat. Without food, his firearms gone, ill, wet and hungry he reached Belleville after ten days hardship. As a result of the exposure he took pneumonia and died in the course of a few months.

It is an improbable story but one thing is certain. In the Meyers family there are spouses made from the silver he brought down with him. He left a map, drawn from memory, and in time this fell into the hands of a lawyer, George Merrill, who went north and relocated the cave, in company with another man. Loth to divulge the discovery, he did nothing for some years and when he did return the fires had swept through the backcountry and had altered its topography to such an extent that he was never able to locate it again.

Several comfortable fortunes have been spent trying to locate the cave. One man lived for fourteen years on top of the Big Rock going over every square inch of it, time and time and again, certain to the day of his death, that his perseverance would be rewarded. Today in a rusted hollow there are a few rotting logs at right angles to mark his home.

Another expedition spent thousands of dollars searching the earth off the central portion of the rock, in a vain search for the cave. Once or twice every summer a group of old prospectors will appear at Bon Echo Inn, and armed with pickaxes and hammers, will mysteriously disappear up the iron staircase mounting the Big Rock, certain that at last they are going to find the lost millions. A day or two later they creep down the backcountry, c'mb silently about the Canadian Pacific train, and go home as they have come, without the treasure.

And over all the Big Rock of Bon Echo as it has watched a millions years, serene and indissoluble.

D. M. J. Conway, teachers.

THE MONARCH OF THE ROCKIES

FEW camera enthusiasts approach Mount Robson, the monarch of the Canadian Rockies, without resolving to secure at least half a dozen good photographs of this towering peak for inclusion in their album when they return home. And to assist the camera enthusiast in his or her laudable endeavor, the Canadian National Railways management has arranged that all trains passing the foot of Mount Robson and other towering peaks along the main line of the Canadian National will stop for five minutes at the foot of this mountain.

The national parks are, of course, game sanctuaries, but game borders is lawful prey for the hunter, and usually, in the vicinity of a park, game is plentiful.

Photograph shows Mount Robson, 13,000 feet in height, as it is seen from the north side, where the mighty peak towers 10,000 feet above the level of the valley. Each year intruders, black and cinnamon bear and a wide variety of large and small game are plentiful and within easy reach of the hunter who may be outfitted at the park headquarters.

Mount Robson is the highest peak in the Canadian Rockies, and is one of the most beautiful mountains in the world.

BRITISH GOVT. HAS MAJORITY ON A DIVISION

London.—By what may, under the circumstances, be regarded as a quite comfortable majority, 48, the Labor Government again succeeded in resisting an attack on its existence, when Sir William Joynson-Hicks' motion to reduce the salary of the labor minister, Tom Shaw, by £100, was rejected after a long debate.

The motion was merely a technical day of expressing disapproval of the government's policy respecting unemployment and a similar motion was talked out in the House recently. Prior to the recording of the vote, Premier MacDonald declared that in the event of a government defeat, Labor would go before the country in a general election.

On division, the vote stood 300 to 232 in the government's favor. H. H. Asquith, the Liberal leader, having announced that his party would not vote against the government.

There were lively scenes of jubilation and counter-demonstration when the vote became known, and shouts of "where is Lloyd George?"

Mr. Lloyd George attended the Liberal meeting to decide upon what action should be taken on the vote, but had not returned to the House when Mr. Asquith announced the decision of his party, and his absence provoked gossip of a split among the Liberals.

The figures of the division showed that 100 Liberals voted with the government, and 20 abstained from voting.

No doubt exists among well-informed political observers that the Conservative wing of the Parliamentary opposition is quite ready to vote the government out of office at any moment.

This, however, is not the state of affairs in the Liberal wing, because in the recent by-elections the Liberal candidates fared so badly that the party does not dare to risk an appeal to the country at the present moment. This situation explains the proceeding in the House.

Prime Minister MacDonald, in defending his Labor ministry, did not trouble to outline any real programme of reforms in any greater detail than he has already done in previous speeches.

No Financial Aid From Ottawa

Proposed Indian Trip For British Tara May Be Cancelled

Vancouver.—Plans of the civic committee for the reception of the special service squadron of the British fleet here next month were given somewhat of a jolt when wires were received from Ottawa that the Dominion Government would accept no responsibility for plans of entertaining the fleet other than the two smoking concerts which it had previously agreed to give the men at Vancouver.

It had been the understanding by the committee that the federal authorities would give 240 men and 40 officers a trip to the interior as far east as Winnipeg. All points between Vancouver and Winnipeg were greatly interested in this proposal and were preparing welcomes, but the wire from Ottawa stated that the government recognized no responsibility in this connection.

The provincial government has made a grant of \$2,500 toward the reception and the Vancouver city council has voted \$6,000.

For Prohibition Enforcement
Washington.—A brand new Congressional investigation, directed at prohibition enforcement, was determined upon by the House alcoholic liquor traffic committee. The committee designated a sub-committee, with instructions to go into all phases of the liquor law situation, including rum smuggling and charges of abuse of the present system.

British Immigrants in Majority
Ottawa.—During the month of April, 19,230 immigrants entered Canada as compared with 9,500 in April, 1923, according to figures issued by the department of immigration. Of those admitted last month, 9,410 were British, 1,338 were from the United States, and 8,682 from other countries.

Toronto.—The Canadian National Committee for Mental Hygiene has received a grant of \$75,000 from the Rockefeller Foundation, for research, experimentation and demonstration in mental hygiene, says an announcement by the committee, on condition that an equal amount should be provided from Canadian sources for similar purposes. The Rockefeller Foundation also stipulates that studies be conducted for a period of five years in applying mental hygiene principles to school children.

Brilliant State Ball

Buckingham Palace Is Scene Of Splendor In Honor Of Italian Royalty

London.—The state ball given by King George and Queen Mary at Buckingham Palace in honor of the visit of King Victor Emmanuel and Queen Helena, of Italy, was on even a greater scale of lavish splendor than the recent ball tendered their own subjects. The function was the culminating social event in connection with the visit of the Italian sovereigns.

Large crowds of Italians gathered in the precincts of the palace, where they were entertained with selections of music played by the band of the Coldstream Guards.

King George and Queen Mary and King Victor Emmanuel and Queen Helena, after the procession to the ball room, during which the national anthems of Great Britain and Italy were played, led off in the quadrille and all the members of the royal party participated in the ordinary programme of the ball which followed.

The state apartments were beautifully decorated with flowers and shrubs. A guard of honor of the Coldstream Guards were mounted at the entrance of the palace. The ball room presented a dazzling display of jewels, the royal visitors having brought with them the precious crown jewels of the House of Savoy and also specially made ball dresses, the work of Italian designers.

The guests included large numbers of members of foreign embassies, especially the Italian embassy, representatives of the British Government, headed by Premier MacDonald, who had with him his daughter, Isabel, and the leaders of all ranks of society.

Metric Weight System Adopted By Japan

Actual Usage Will Be Introduced During July

Tokyo.—Japan is preparing to adopt the metric system of weights and measures, and educational propaganda designed to acquaint the people with the system is being spread under the direction of the department of agriculture and commerce.

Actual adoption of the system will begin July 7. Within five years from that date all government departments, industries, services and schools must substitute the metric system for the present Japanese units of weight and measure.

May Improve British Ports
London.—Schemes for improving the port facilities of the United Kingdom at an estimated expenditure of £20,000,000 have been recommended by a committee appointed by the Shipping Association, British Chamber of Commerce, and the Federation of British Industries, after a searching inquiry into the matter of the British ports.

C. N. R. DEFICIT IS REDUCED BY SUBSTANTIAL SUM

Ottawa.—It was in terms of optimism that Hon. G. P. Graham, minister of railways, presented to the House the annual statement of the Canadian National Railways and the Canadian Government Merchant Marine.

He gave comparative results for last year and the year previous, and said that "On all Canadian National Railway lines (including the Central Viceroyalty) he gave the net operating revenue as:

1923, \$21,187,465; 1922, \$33,993,237; increase, \$12,805,772.

After usual deductions and additions involved in taxes, rentals, hire of equipment, etc., total income before fixed charges was:

1923, \$13,361,875; 1922, \$1,499,782; increase, \$11,862,093.

Fixed charges during the year increased from \$60,196,693 to \$66,144,226. The total deficit, after fixed charges, was:

1923, \$52,778,450; 1922, \$58,696,911; decrease, \$5,918,461.

The Canadian Government Merchant Marine had a deficit last year, after all charges, including depreciation and interest, of \$9,368,670. This is an improvement of \$290,508 over the previous year.

Mr. Graham drew attention to the point that as a result of the year's operations, the railways themselves had been able to provide \$13,361,875 (an improvement in round figures over the previous year of twelve millions) towards fixed charges due to the public.

Mr. Henry Thornton, Mr. Graham said, had made it clear that restriction of maintenance had played no part in the improvement last year. Mr. Graham suggested for the consideration of the House:

(1) Increase of the board of directors, to have a strong executive of business men close at hand who could be called together by telephone overnight.

(2) Whether the government should be asked to guarantee equipment securities.

Increase In Exports

During 1923 Canada's Best Customer Was United States

Ottawa.—Canada's best customer during the 12 months ended April was the United States. It having imported Canadian goods to the value of \$429,265,000, an increase over the previous year of \$50,000,000. Canadian purchases from the United States were \$59,532,000, an increase of \$41,000,000.

Canada's next best customer was the United Kingdom. Imports from the United Kingdom were \$152,017,000, an increase of \$7,000,000; exports to the United Kingdom were \$35,550,000, a decrease of \$25,000,000.

Weekly Newspaper Men Go Overseas

Sale Of Shares Act Is To Be Tested

Winnipeg.—Validity of the Sale of Shares Act in Manitoba, Saskatchewan and Alberta will be tested by court action in all three provinces. The action will be brought by the Shareholders' Protective Association of the Northwestern Trust Company, in liquidation. This was the course decided upon when the return of the application to settle the list of contributors of the company came up before George Paterson, K.C., master of the Court of King's Bench. An adjournment of two weeks was granted.

Says U.S. Offers To Purchase Death Ray

Matthews Claims American Government Is Interested In Invention
Paris.—Americans have entered the race to obtain the secret of Grindell Matthews' death ray, Matthews claims.

With Great Britain, the inventor's own country, and France in competition for the diabolical invention which, it is claimed, may revolutionize war and make the nation which it is supreme, Matthews gave out that he had received a written offer from the United States.

Other reports said the National Academy of Sciences at Washington had cabled the inventor asking particulars, and that American naval attaches had been ordered to investigate Matthews' claims.

American officials here denied that the United States Government was in any way interested in the ray.

Meanwhile, both French and British claims to have a definite contract with the inventor cutting them to share in the deadly ray, which kills at great distances, explodes ammunition, destroys machinery and brings down airplanes in flames, according to Matthews.

Long Term Credits For Farmers

Dr. T. J. of Alberta, Urges Necessity For Giving Aid To Agriculture

Ottawa.—The necessity for long term credits at uniform rates, under federal control, to permit Canadian farmers to finance their operations, was suggested by Dr. H. M. T. J. of the University of Alberta, and advisory chairman of the Honorary Council for Scientific and Industrial Research, who was examined by the banking and commerce committee of the House of Commons.

Dr. T. J. followed closely the lines laid down in his report on rural credit published by the Federal Government in April last.

He said that in the United States and Canada most of the advocates of the long term credits system were of the opinion that only diversified farming would provide an adequate measure of security for such loans. In the western states such credits generally were only available to mixed farmers.

London Still Financial Centre
London.—Sir John Aird, president Canadian Bank of Commerce, in an interview in the Financial Times, expressed the opinion that New York would never supplant London as the monetary and financial centre of the world.

With the treasurer, stability of exchange, Sir John said, Canada would again turn to London for loan flotations.

Radio Messages Sent Printed For Delivery

Letters As They Appeared On Telegram Form Were Perfect

Montreal.—For the first time in the history of wireless telegraphy at sea, radio messages have been automatically transmitted, and actually printed for delivery to the addressee without human aid. Word to this effect has been received by the local offices of the White Star Dominion Line from the purser of the Olympic in mid-ocean enroute to Cherbourg.

The reply it will make to words a minute transmitting apparatus on the ship automatically sent messages over a distance of 900 miles to the land station at Devizes, England, whence they were relayed to the General Post Office, London.

The message further states that the printed letters as they appeared on the telegram form ready to be delivered to the addressee were perfect.

GENERAL INQUIRY INTO GERMANY'S ARMY EQUIPMENT

Paris.—The Allied Council of Ambassadors has agreed on the terms of the transformation of the military control commission into a committee on guarantees, placed at the expense of the allies, must be preceded by a general inquiry into the state of Germany's military establishment, with a complete inventory of its resources.

The note will demand that the future activities of the control authorities shall cover the five categories listed in the preceding correspondence on this subject. These are:

First—The reorganization of the German police.

Second—The transformation of munitions factories to pursuits of peace.

Third—The delivery of the balance of the material on hand in Germany's possession.

Fourth—Delivery of documents relating to the war material on hand when the armistice was signed.

Fifth—The promulgation of laws to put the reorganizing organization of the army in harmony with the terms of the peace treaty.

Trainmen Wage Negotiations
Montreal.—The putting into effect in Canada of the same wage concessions recently put into effect on principal lines in the United States for engineers, firemen, conductors and trainmen, is the sum total of the request made by the executives of the Order of Railway Conductors and the Brotherhood of Railway Trainmen, at the wage conference, with the operating committee of the Railway Association of Canada.

CROP CONDITIONS IN THE WEST ARE FAVORABLE

Winnipeg.—Marked improvement in weather conditions throughout the prairie provinces has proved a welcome boon to the farmers generally. Despite the lateness of seeding operations and the unusually cold weather during the past month, recent rains and rise in temperature have contributed to rapid growth.

Wheat seeding is completed in the three provinces, with the exception of a few isolated districts, while good progress is reported in the seeding of coarse grains.

Farmers in the Regina district report that crops are slightly ahead of last year, and in some districts wheat has reached the height of three inches.

The season's crop prospects in Alberta are regarded as the most ideal in many years. Showers have been general and germination is assured.

In Manitoba the crop is not much later than in former years, although the lateness of the seeding season materially reduced the acreage sown to wheat. There is ample time yet for the development of a good crop, and notwithstanding unfavorable weather conditions during the early spring, "no fear need be entertained concerning the crop," declared Premier Bracken, minister of agriculture for Manitoba, following a visit through the Neepawa district.

U.S. Has Stiff Problem

Claim, Immigrants Are Smuggled Across Border From Canada

Montreal.—Immigrants smuggled by automobile across the Quebec border into the United States are filling Northern New York, Vermont, New Hampshire and Maine jails; organized bootlegging is also being uncovered; still penitentiary terms are being handed out by United States courts to those caught; and the United States immigration service is strengthening its frontier patrol.

Such is the situation today as outlined by J. R. Clark, United States immigration commissioner in this district, who terms the problem facing his organization as "gigantic."

Mr. Clark pointed out that wartime passport regulations are still in force in the United States, and that judges have the power to impose sentences of this offence of 10 years in the penitentiary and a fine of \$10,000.

Restore Rheims Cathedral

John D. Rockefeller, Jr., Offers One Million Dollars For This

Paris.—John D. Rockefeller, Jr., has placed \$1,000,000 at the disposal of a Franco-American committee for the purpose of reconstructing the roof of the Rheims Cathedral, destroyed by the Germans in the World War, and restoring and beautifying the fountains and the gardens at Versailles and Fontainebleau.

Mr. Rockefeller is moved to make this gift because, as he said in a letter to Premier Poincaré dated May 3, "among the treasures of which France is custodian, are some which belong to the patrimony of all nations, for their influence is a source of inspiration of universal art."

"HELL'S GATE" REMOVED

The booze gate, immediately west of Coleman, which for several years has marked the scene of the biggest farce in the history of any Canadian province, the idea of which originated with Alberta's former government, has at last been removed.

The history of the gate should be chronicled the world over, to prove that all jokes have not been given their proper place in Canadian literature.

The gate has been operated with a view to curtailing the inter-provincial trafficking in liquor during the prohibition period. It cost the salaries and expenses of several police officers during that period, who were afforded a splendid opportunity to make more than salary and expenses.

It also cost the Alberta government other amounts that have not been made public. The revenue derived therefrom included a penalty awarded a touring couple from California to Northern Alberta, where they in their waning years hoped to visit a son and daughter. Enroute through "Barnie" they were obliged to purchase upon a doctor's prescription a bottle of brandy, not to satisfy any thirst on tonic for his indisposed partner in the part of the driver, but as a life. They were both regarded as lady and gentleman, until they reached Alberta, where they were immediately branded criminals under the prohibition act.

At this gate, their bottle of "medicine" was taken from them and kept by the authorities and a fine of \$25 was exacted. They continued their journey northward and returned to the States by some other route, pledging never again to set foot on at least this side of the Dominion.

The above is only one of a number of comedies that can be accredited to the Boozie Gate, generally referred to as "Hell's Gate."

Because The Enterprise put into print some of the styles by which the famous gate was becoming known, we were at one time called on the carpet in a dark room of a police barracks, where the influence of officialdom was to be thrust upon us but unsuccessfully indeed.

As a means of curtailing liquor traffic, the gate never accomplished an iota, for booze flowed into Alberta by other means and directions over which the authorities apparently had no control.

"OCEANS OF POWER"

THE NEW OVERLAND 91 generally has "Oceans of Power." The famous OVERLAND Engine as improved in the New 91 develops SEVEN HORSEPOWER MORE than former models, which will take you up and practically over any hill in the Blaimore district without a gear shift. This is only one of several important factors in the "New 91" that has made it "The Most Car in the World for the Money."

Call in and ask for a Demonstration—You will be convinced.

You'll Be Admired

and oft times envied in one of our swell form fitting suits. Suits of fully shrinking pure woolen cloth. There's a dash and class to our tailoring that sets off your figure to the best advantage. And another thing, the suit will hold its shape and wear well.
